NOUNS ENDING IN "O."

We often find errors in the plurals of nouns ending in "o." To avoid this bear in mind the following general rule: If there is a consonant before the final "o" the plural is "es," but if a vowel precedes it the plural is formed by adding only the "s." There are, however, some exceptions to this rule, and they are here given, as follows:

albinos
armadillos
bustos
cantos
catsos
centos
didos
dominos
duodecimos
embryos
exaltados
frescos
gauchos
grottos

twos
tyros
virtuosos

WORDS ENDING IN "ISE."

Words ending with the sound of "ize" are variously spelled "ise" or "ize." Of this class the correct spelling of the following words is "ise;" nearly if not quite all others take "ize:"

"EI" AND "IE."

Many persons find it difficult or impossible to recollect the relative position of "e" and "i" in such words as "receive," "believe," etc. If they will bear in mind the following rule, it may save them the trouble of referring to a dictionary for this point:

When the derivative noun ends in "tion," the verb is spelled with "ei," thus:

conception	conceive
deception	deceive
reception	receive

But when the noun does not end in "tion," the verb is spelled with "ie," as:

belief	believe

An old printer gives the following rule for using "ei" and "ie," viz: Bear in mind the word "lice"—"i" follows "l" and "e" follows "c," thus, li-ce.

Following is a list of the words beginning with "s" and followed by "ei" or "ie," the parts of words in parentheses to be joined to the prefix in heavy type as a single word:

seiches
seidlitz
seignior (age, alty, y)
seirospore
seismology (mal, mic, mograph, mometry, moscope)
seity
seize (able, in, or)
siege
sienna
Siennese
siesta
sieur
